

## Sonic Story

This graphic tells the sonic story of The Twisted Tale of Hansel and Gretel. It highlights the key sounds from throughout the performance. The graphic is available to all audience members but we hope that it will be particularly useful for anyone who might benefit from an increased understanding of the sensory elements of the show.

## Sonic Summary:

This performance moves consistently between spoken dialogue, music and songs. A lot of the music and sound effects are made by the Mockingbird, who plays many different instruments on stage. Other than the louder elements highlighted on the graphic above, there are no sudden or loud noises during the performance and no long moments of complete silence.
